Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 11-16 and 16-19 are allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest the reflection system controllable on a pixel by pixel basis to modulate light output from the diffraction grating as set forth in the claimed combination.

Claims 22-27 are allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest the modulating the intensity of the spectral components from the diffraction grating to produce a light output characteristic of such pixel as set forth in the claimed combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fayez G.
